

Important Notes on the Product Range of Ensinger Sweden AB

You can order semi-finished products with alternative fillers and reinforcing agents and other filler contents than specified (e.g. with bronze, talcum, MoS₂, graphite, mica, PTFE, PE, wax or silicone oil, etc.).

Colours are also possible. We can naturally also extrude plastics not listed here for you. If no alternative colours are given, Ensinger plastics are produced in their natural colour.

For plates with a thickness from 0,5 to 4 mm and for our materials SINTIMID and TECAST, please refer to the tables for different stock sizes. Extruded heavy wall tubes can be supplied up to 500 mm outside diameter, centrifugally cast polyamide tubes up to 710 mm, compression moulded rings up to 2070 mm. Other delivery lengths, sections and discs are also available. Please let us have your enquiry. Rods, heavy and thin wall tubes can also be supplied with outside diameters ground to other special dimensions. Intermediate sizes or different tolerances can also be supplied.

Semi-finished product tolerances conform to the following DIN standards: DIN EN 15860.

Our technical terms of supply are based on DIN standards, e.g. DIN EN 15860. Please note that modified materials are not standard and that the tolerances quoted by us should be used as a guide only. We reserve the right to incorporate modifications in line with technical developments.

Publication of this brochure supercedes and invalidates all previous issues. You can find current changes at ensingerplastics.com.
